Assessment Performed by TAC Security

Application Name: Smart Bulk Renamer	**Certification ID:** a25587d7
Assessment Type: Tier 2 (Lab Tested - Lab Verified)	**Issue Date**: 8/20/2024 2:43:37 PM
Assessment Status: Complete	**Expiration Date**: 8/21/2025

Statement of Validation

The purpose of this report is to provide users verification that SyncWithTech has successfully completed a Cloud Application Security Assessment (CASA), validating Smart Bulk Renamer **has satisfied CASA application security requirements.** In meeting these assessment requirements, Smart Bulk Renamer is **verified** to meet the CASA **Tier 2** requirements.

The assessment was conducted by TAC Security an independent third party lab, authorized by the App Defence Alliance to conduct CASA security assessments.

About CASA

CASA is based on the industry-recognized Open Web Application Security Project (OWASP) Application Security Verification Standard (ASVS) to provide third-party (3P) application developers with:

A basis for testing technical application security controls

A consistent set of requirements for secure application development

A homogenized coverage and assurance levels for providing security verification using industry-aligned frameworks and open security standards.

More information on CASA, including a complete list of CASA requirements is located on the App Defence Alliance Site.

Assessment Scope

The assessment was conducted using CASA requirements. Please note that not all requirements apply to every application. Additionally, some applications may be validated for specific requirements based on pre-existing certifications that have been mapped to the CASA requirements. A list of mapped certifications and corresponding requirements can be found here.

Category	Status

Architecture, Design and Threat Modeling Requirements	Pass
Authentication Verification Requirements	Pass
